Facility Telephone #:	(616) 997-3600
Capacity:	305
Program Type:	CHILD CARE CENTER

II. Purpose of Addendum

On 04/06/2023 Program Director Kristen Spoelman submitted a modification request to approve new use space for summer programming.

III. Methodology

04/06/2023 – Modification Request Received
04/06/2023 – Inspection Completed on-site

IV. Description of Findings and Conclusions

Coopersville Public Schools operates a licensed preschool program, school aged care and before/after school program. The West Early Childhood Building, Coopersville East and Coopersville South buildings were previously approved for care. The licensed program would like to approve several additional rooms at the South building for school aged **summer care** while projects are completed at the West building. All four of these school buildings are located on the same campus and have the same address. Because of this, new licenses were not necessary, and a modification of the current license could be completed.

The South building:
Room S55 measures approximately 67ft x 55ft, for a total of 3,685 square feet. This is sufficient space for up to 105 children at one time. The licensed program understands that maximum group size for preschool and school aged children is 36.

Room S24 measures approximately 45ft x 24ft, for a total of 1,080 square feet. This is sufficient space for up to 30 children at one time.

Room S23 measures approximately 31ft x 43ft, for a total of 1,333 square feet. This is sufficient space for up to 38 children at one time.

Room S29 measures approximately 37ft x 26ft, for a total of 962 square feet. This is sufficient space for up to 27 children at one time.

Room S3 measures approximately 37ft x 26ft, for a total of 962 square feet. This is sufficient space for up to 27 children at one time.

There are 16 toilets and 7 urinals available for child use, and 15 sinks. Licensing rules require 1 toilet and 1 handwashing sink for every 15 children in care. This is sufficient for a license capacity for this building of 227 children for summer care.

Previously approved spaces:
Coopersville East houses first and second grade classrooms. The licensed program would like to approve the gymnasium for before/after school care. The gym measures approximately 80ft x 50ft, for a total of 4,000 square feet. There are 15 toilets and 6 urinals available for child use, and 4 sinks. Licensing rules require 3 1 handwashing sink for every 15 children in care. Therefore, the license capacity for this building is 60 children.

Coopersville South houses third through fifth grade classrooms. The licensed program would like to approve the Gymnasium and Cafetorium for before/after school care. The gym measures approximately 97ft x 72ft, for a total of 6, 984 square feet. The Cafetorium measures approximately 70ft x 58ft, for a total of 4,060 square feet. There are 9 toilets and 4 urinals available for child use, and 4 sinks. Licensing rules require 1 handwashing sink for every 15 children in care. Therefore, the license capacity for this building is 60 children.

The West Early Childhood Building continues to have the following rooms/spaces approved for use: Rooms 11, 23, 25, 26, 28, 29, 31, 33, 36, 37, 38, 39, 40, the gym and the cafeteria. Please refer to the previous addendums for these room measurements and capacities.

V. Recommendation

I recommend the addition of 5 additional child use spaces to be used for summer care in the South Building.
