## **IV. Description of Findings and Conclusions**

The terms of the original license have been modified on 03/15/2021 and 11/22/2022.

Hawkeye Preschool is located in Room 4 at Sandyview Elementary School in Hamilton. The licensee has requested approval to add an additional preschool classroom in Room 3 and increase the capacity to 42 children.

Room 4 is 36 ft. x 14 ft. and 32 ft. x 10 ft., providing a total of 824 square feet and can accommodate up to 23 children.

Room 3 is 29 ft. x 23 ft., providing a total of 667 square feet and can accommodate up to 19 children.

The children in this program will also be utilizing the gymnasium and the library. The gymnasium is 60 ft. x 40 ft., providing a total of 2400 square feet and the library is 30 ft. x 20 ft., providing a total of 600 square feet. This space accommodates the requested capacity of 42 children

These programs will provide care for children ages three through six years old. There are an adequate number and varied amount of toys and other learning equipment to accommodate both the ages and requested capacity for this child care program.

A lead risk assessment was conducted by Erick Knuth of AAA Lead Inspections, Inc. on 9/9/2022. The requested space was inspected and approved for child care use.

Room 4 is a self-contained classroom that has three hand washing sinks and two toilets. Room 3 has one hand washing sink. There are restrooms located down the hall from the classrooms. The girls' restroom has two toilets and two hand

washing sinks. The boys' restroom has one toilet, two urinals and two hand washing sinks. There are enough toilets and hand washing sinks to accommodate 42 children.

The natural playground is located behind the school. There are no water hazards located on the property.

**V. Recommendation**

I recommend that Room 3 is approved for child care use and that the total capacity is increased to 42 children.
