RE: License #: DC030393655

RE: SI LOG #: **Education Station
863 East Superior Street
Wayland, MI 49348**

Dear Mr. Wedyke:

This letter is to advise you that the 08/17/2022 corrective action plan you submitted, regarding each rule violation cited in the recently completed Renewal Licensing Study Report, is approved.

You can find a copy of this corrective action approval letter and the associated report on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of each type of report and corrective action plans can be found under [Overview of Licensing Reports](#).

Violation cited	Noncompliance observed	Plan to correct	Date to be completed
8112(2)(b)	One of the staff files reviewed did not have a Consent and Disclosure form on file at the center.	All staff files will be updated and corrected	12/31/2022
8131(3)	One of the seven staff files reviewed did not show completion of training on prevention of shaken baby syndrome, abusive head trauma and child maltreatment, and recognition and reporting of child abuse and neglect prior to caring for children	All trainings will be completed	12/31/2022
8131(4)	One of the seven staff files reviewed did not show completion of training on prevention and control of infectious disease training, including immunizations	All trainings will be completed	12/31/2022

	before unsupervised contact with children.		
8131(5)	One of the seven staff files reviewed did not show completion of training on (a) Administration of medication. Prevention of and response to emergencies due to food and allergic reactions. Building and physical premises safety. Emergency preparedness and response planning and storage of hazardous materials and appropriate disposal of bio-contaminants. Precautions in transporting children, if applicable or Child development. These trainings were not completed within 90 days of hire.	All trainings will be completed	12/31/2022
8134(4)	The guidelines for hand washing were not located in the School Age room by the handwashing sinks.	These were placed in all areas	8/30/2022
8137(7)	Guidelines for diapering were not posted in the 4-year-old preschool bathroom area. During the onsite inspection a diaper change was observed in this area.	These were placed in all areas	8/30/2022
8143(3)(a)	Three of the 20 child files reviewed did not have a certificate of immunization on file or a waiver.	These will be updated	12/31/2022
8143(7)(a)	Three of the 20 child files reviewed were infant and toddler age children that had not had physical evaluations updated every year.	These will be updated	12/31/2022
8143(7)(b)	Six of the 20 child files reviewed were preschool age children that had not had physical evaluations updated every 2 years	These will be updated	12/31/2022
8143(8)	Four school age children did not have annually updated signed statements on file.	These will be updated	12/31/2022
8173(6)	During the onsite inspection in the four-year-old preschool room I observed approximately 10 playspaces for the 15 children present in the room. The kitchen area of the home had no plates, play food or items to play with. The large block area had only 2 bins of blocks.	Equipment will be purchased	8/31/2022
8176(17)(b)	The stackable cots in the four-year-old preschool room were stored in a manor that the bedding was overflowing and coming in contact with other bedding. In addition, there was a pile of	Staff will be retrained	8/17/2022

	blankets and pillows set on top of the stacked cots.		
8176(8)	A child that was approximately 4 months old was observed sleeping on his stomach with a swaddle attachment around his waist. The staff members stated they had a doctor's note, however the doctor's note instructed the use of a "weighted sleep sack" and not a swaddle. I explained the difference between the weighted sleep sack and a swaddle, and that a swaddle is not supposed to be used on children once they roll to their stomach.	Staff will be retrained	8/17/2022
8325(1)	Multi-purpose tables in the four-year-old preschool room and the toddler room were not washed, rinsed and sanitized before use for lunch	Staff will be retrained	8/17/2022
8330(21)	Three infants were observed laying on the ground feeding themselves their bottles during the onsite inspection. I explained that two infants could be held in a staff members arm, and hold their own bottles, however infants should be held while feeding.	Staff will be retrained	8/17/2022
8380(5)	There are a number of spots in the child care center that have areas of peeling paint and areas where exposed drywall is present due to chips, hits, and wear. Areas include the three's, four's and school age rooms.	Center will be repainted	12/31/2022

It is expected that the corrective action plan will be implemented within the time frames as outlined in your plan.

A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

The office provides technical assistance to meet the licensing requirements and consultation to improve services. Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, you may contact the local office at (517) 284-9730.

Sincerely,
