Dear Ms. Weaver:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 01/04/2022. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During the interim inspection, I observed infants, toddlers, and preschool age children and staff during choice time, group time, literacy activities, lunch, and bodily care routines. Staff engaged in nurturing and supportive interactions with children throughout the inspection period.

The violations that were found are:

R 400.8161 Emergency procedures.

- (2) The written procedures must include all of the following:
- (h) A plan for how children with chronic medical conditions will be accommodated during each type of emergency.

Written emergency procedures were not developed for the accommodation of children with chronic medical conditions. Several children with documented medical conditions did not have emergency care plans to accommodate their needs for each type of emergency.

Technical Assistance and Consultation were provided on the following:

- Obtaining an updated doctor's note for the infant with alternate sleeping position needs. The note must include an end date, and exact instructions on the use of alternative sleeping equipment if required.
- An example emergency care plan was provided during the inspection.
- Disinfecting wipes can be used as a sanitizing step after diaper areas are washed and rinsed. Check package labels to make sure contact times are followed to ensure proper sanitization.
- Strategies were discussed for obtaining complete child information cards from parents who are not allowed in the building due to COVID restrictions.
- The posted staff screening statement/policy should be updated to reflect the Comprehensive Background Check rather than I-CHATs.

On 01/04/2022, you gave us an acceptable written corrective action plan.

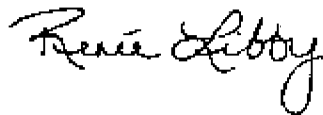

During calendar year 2021:	Total
Number of serious injuries that occurred in facility.	0
Number of deaths that occurred in the facility.	0
Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	0
