Dear Mrs. Colberg:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 03/30/2023. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

The violations that were found are:

(3) A center shall provide a floor plan of all child use areas to the department at initial licensure and before making structural changes or adding any child use space. Only space that has received prior approval for child use by the department may be used for child care.

Ms. Colberg rearranged the toddler area so that she could have eight toddlers. She did not request a modification prior to doing this.

R 400.8170 Outdoor play area.

(11) The playground equipment, use zones, and surfacing in the outdoor play area must be inspected by a certified playground safety inspector and an approval granted for playground equipment and areas used before issuance of an original

license, upon request of the department, and before using any newly added playground equipment. The center shall provide documentation of the inspection to the department upon request and shall keep it on file at the center.

Ms. Colberg added a blue and yellow climber and did not have it inspected.

On 3/30/23, you gave us an acceptable written corrective action plan.

Upon receipt of an acceptable corrective action plan, there will be no change to your license status.
