II. Purpose of Addendum

The licensee requested to increase capacity to serve 70 school-age children.

III. Methodology

03/20/2020	Modification Request Received
12/07/2021	Inspection Completed – Fire Safety: A Received Certification of School Building Fire Safety Provisions
12/07/2021	Inspection Completed Onsite

IV. Description of Findings and Conclusions

The terms of the license have been modified on 08/20/2008 and 06/22/2011. The YMCA School Age Care operates within Roosevelt Elementary School in the Lakeshore Public School District.

The following rooms were previously approved child use space:

- **Gymnasium** measured 89'x55' providing for a total of 4,895 square feet. This is enough space to accommodate the requested capacity of the center.

The center has sufficient square footage to support the requested capacity of 70 school-age children.

The children in the center have access to handwashing sinks near the gymnasium. The girl's bathroom contains three toilets and two sinks. The boy's bathroom contains one toilet, one urinal, and two handwashing sinks. The center has a total of four toilets, one urinal, and four handwashing sinks available to children. This supports the center's requested capacity.

The center has an adequate amount of developmentally appropriate equipment to serve the number and ages of children served.

The center uses the school's outdoor play equipment. Parents are notified at the time of enrollment that the center plans to use the schools outdoor play equipment.

An environmental health inspection was not required.

A lead hazard risk assessment is not required as this program will only serve school-age children.

A Certification of School Building Fire Safety Provisions was completed on 12/07/2021.

The program is Ryan Kitron approved under R 400.8113 (8)(a) and (9).

Terms:

The center is approved for a total capacity of 70 school age children ages 5-12 years.

The center does not provide food, transportation, or swimming components.

V. Recommendation

I recommend an increase in capacity to 70 school-age children.
