RE: License #: DC130400330

Dear Mrs. Samra:

This letter is a follow-up to the Department’s findings regarding the interim inspection conducted at your center on 03/06/2023. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During the onsite inspection, I observed child care children on the playground, hand washing, eating lunch, engaged in large gross motor and napping. I observed child care staff performing diaper changes, assisting children with toileting and hand washing, assisting with meals, and supervising in outdoor play and other play activities.

The violations that were found are:

<b>R 400.8137</b>	<b>Diapering; toileting.</b>
	(2) Children 1 year of age and older may be changed in a bathroom standing up or on a nonabsorbent, easily sanitized surface, with a changing pad between the child and the surface.
	The infant/toddler room (1 <sup>st</sup> bay) has removed the diaper changing table and performing standing diaper changes in the classroom. Standing diaper changes must be completed in a bathroom for toilet training and sanitization purposes.
<b>R 400.8152</b>	<b>Medication; administrative procedures.</b>

	(6) A child care staff member shall give or apply any prescription or nonprescription medication according to the directions on the original container, unless otherwise authorized by a written order of the child's physician.
A child care child under the age of 2 years old had a over the counter allergy medication provided by the parents onsite. The label directions indicated that children under 2 years old should not be using the medication. A prescription would be necessary to dispense.	

Due to the violations, you must send us a corrective action plan by 3/26/2023. You may use our [corrective action plan](#) form or create your own.

If you need help writing the corrective action plan, please contact me. If you do not send a corrective action plan, you may face disciplinary action. The corrective action plan must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific time frames for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the responsible party and a date.

Upon receipt of an acceptable corrective action plan, there will be no change to your license status.

<b>During calendar year 2022:</b>	<b>Total</b>
Number of serious injuries that occurred in facility.	<b>0</b>
Number of deaths that occurred in the facility.	<b>0</b>
Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	<b>0</b>
