Dear Ms. Brown:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 12/02/2020. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

When I arrived for the onsite inspection, two child care staff members were providing care to five school-age children; three children and one child care staff member in room #111 and two children and one child care staff member in room #112. In both classrooms, children were working on school work as they are currently learning virtually. Children had school work and free choice activities accessible on their tables.

The classrooms are well organized and inviting. There is a sufficient amount of developmentally appropriate equipment for the children to choose from. Child care staff moved throughout the classrooms assisting children as needed; meeting individual children's needs. Child care staff engaged in conversation, expanded their language skills while enhancing their virtual learning experience.

Technical assistance was provided to Ms. Brown in regard to next year's renewal inspection, ensuring the child care background portal is regularly maintained, and emergency procedures are updated to reflect Licensing Rules for Child Care Centers Effective 12/18/2019.

As a result of the inspection, I did not find any rule or law violations.

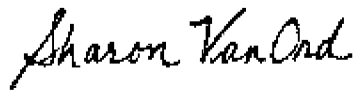

During calendar year 2019:	Total
Number of serious injuries that occurred in facility.	0
Number of deaths that occurred in the facility.	0
Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	0
