Dear Mr. Gnegy:

This letter is a follow-up to the Department’s findings regarding the interim inspection conducted at your center on 05/18/2021. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

When I arrived for the inspection, thirty three children were in care with seven child care staff members; room 1 had twelve children with two staff, room 6 had eleven children with two staff, and room 7 had ten children with three staff. Children in rooms 1 and 6 were observed resting while children in room 7 were engaged in free choice activities. Children were coloring and playing with various floor manipulatives. Child care staff members engaged in play and moved around the room meeting individual children’s needs.

The classrooms are well organized, inviting, and have a sufficient amount of developmentally appropriate equipment for the children to choose from. Child care staff members are warm, welcoming, and work as a team in each classroom. Children’s files and staff files were reviewed for completeness. Files were extremely organized, complete, and well labeled.

As a result of the inspection, I did not find any rule or law violations.
