III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

During the inspection, I provided Ms. Schaefer technical assistance and consultation on the following rules:

- Recording staff members work schedules daily, time in and out

- Pack and play requirements - not using any new mattresses not included with the pack and play.
 - Sending me Pantera's new physical
- Smoke detector's, the upstairs one needed a new battery. This was corrected onsite.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
