III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8131 Professional development requirements.

(10) All child care staff members who work directly with children are required to be trained in first aid and pediatric,

child, and adult cardiopulmonary resuscitation (CPR) within 90 days of being hired. Prior to issuing a license to operate a child care center, and prior to the renewal of a license, the department shall verify that at least 50% of the child care staff members who work directly with children are currently certified in first aid and pediatric, child, and adult CPR. Each of these child care staff member's first aid and CPR certificates must be valid and retained on file in the center.

Child care staff member Kelly Gardy completed 10.5 clock hours of training in calendar year 2019 and 9.5 clock hours in calendar year 2020.

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan, I recommend issuance of a regular license to this child care center.
