III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

During the inspection I provided Ms. Ahrens technical assistance and consultation on the following rules:

- Removing the bleach wipes from the handwashing area (done onsite)

- Documenting annual reviews (Mr. Ahrens conducts there but they didn't put this on the staffing plan)
- Documenting staff orientation and emergency procedure training (they are doing this but not documenting specific dates)
- Documenting staff time in and out attendance on a log (versus electronic recording)
- Clarification on child immunization's and physicals

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
