RE: License #: DC250384986

RE: **Kingdom Kidz Zone Learning Center**  
**1233 Roosevelt Ave**  
**Flint, MI 48503**

Dear Ms Keels:

This letter is to advise you that the 03/22/2022 corrective action plan you submitted, regarding each rule violation cited in the recently completed Renewal Licensing Study Report, is approved.

You can find a copy of this corrective action approval letter and the associated report on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of each type of report and corrective action plans can be found under [Overview of Licensing Reports](#).

| Violation cited                             | Noncompliance observed                                                                                                                                     | Plan to correct                                                                                                                                                                                                          | Date to be completed |
|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|
| R400.8182 Ratio and group size requirements | The infant room had nine infants in it with only two staff present. Nine infants would require three child care staff members.                             | Licensee will ensure appropriate staff to child ratios in all rooms in the center.                                                                                                                                       | 3/22/2022            |
| R400.8185 Primary Care                      | The infant room did not have designated primary caregivers for each child. All documentation was listed with only one staff member as responsible for all. | License will ensure primary care is provided, documented and onsite for review. Each child care staff member will have assigned infant/toddlers they provide primary care for and are responsible for their direct care. | 3/22/2022            |

It is expected that the corrective action plan will be implemented within the time frames as outlined in your plan.

A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

The office provides technical assistance to meet the licensing requirements and consultation to improve services. Please contact me with any questions. In the event that I am not available, and you need to speak to someone immediately, you may contact the local office at (517). 284-9730.

Sincerely,

A handwritten signature in cursive script, appearing to read "Kelly Millar".
