III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8380

Maintenance of premises.

(4) Floors, interior walls, and ceilings must be kept in sound condition, good repair, and maintained in a clean condition.

At the time of the onsite inspection, several wall tiles on the gymnasium wall were lacking grout or caulking, causing sharp exposed edges.

- On January 30, 2023, I provided technical assistance to Amanda (Mae) Bendall regarding programing during the afterschool program. It was advised to consider having individualized activities available sooner during the session.
- I advised Ms. Bendall that the gymnasium door to the side parking lot has deterioration on the door frame which will need to be addressed.
- Flavored milk beverages are not allowed as a food component.

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan, I recommend issuance of a regular license to the child care facility.
