IV. Description of Findings and Conclusions

The terms of the original license have been modified on December 15th, 2022.

The center is a one-story building with six rooms. I made an onsite inspection to measure rooms.

Approved space:

Infant Room: This room is 32 x21 ft., providing a total of 672 square feet. This is sufficient to allow for 12 children between birth and 2.5 years of age.

Toddler 1: This room is 33 x 20 ft., providing a total of 660 square feet. This is sufficient to allow 12 children between birth and 2.5 years of age.

Toddler 2: This room is 39 x 20 ft., providing a total of 780 square feet This is sufficient to allow for 12 children between birth and 2.5 years of age.

Discovery Preschool: This room is 39 x17 ft., providing a total of 663 square feet. This is sufficient to allow for 13 children between 2. 5 years of age and 3 years of age.

Preschool: This room is 39 x 20 ft., providing a total of 780 square feet. This is sufficient for 22 children aged 3 to 4 years of age.

Pre-K: This room is 32 x18 ft., providing a total of 576 square feet. This is sufficient for 16 children aged 4 until school age.

Number of sinks and toilets:

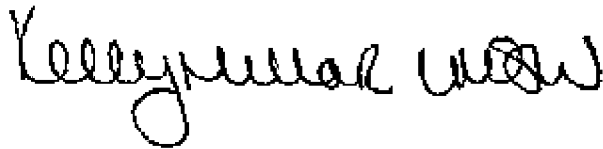

Each classroom has a bathroom with one toilet and one sink. Each classroom has an additional sink located inside the classroom. The Infant and Toddler classrooms have an additional sink located at the diaper changing station. There are total of six toilets and fourteen sinks available for child use in the facility. This supports the center's capacity.

A lead hazard assessment is not required as the building was built after 1978.

The center had a fire inspection completed on 04/21/2021 for the original opening. The center had an environmental health inspection on 04/30/2021 for the original opening.

V. Recommendation

I recommend approval of the modification of room changes and capacities for rooms and overall, for 87 for the center.
