Dear Ms. Ettinger:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 03/07/2023. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

I observed infants in safe sleep environments, free play, outdoor play, diaper changes, and hand washing. The children appeared happy and bonded to caregivers. The caregivers were nurturing and caring towards children.

The violations that were found are:

R 400.8335 Food services and nutrition; provided by center.

- (8) All of the following apply to milk:
 - (a) Containers must be labeled with the date opened.

The milk in the Infant 2 room was opened but not dated.

R 400.8340 Food services and nutrition; provided by parents.

(3) Breast milk, formula, milk, other beverages, and food furnished in a same-day supply must be covered and labeled with the child's first and last name and the date.

Throughout the center food and beverages provided by parents were not labeled with first name, last name, and date.

R 400.8385 Poisonous or toxic materials.

Containers of poisonous or toxic materials must be clearly labeled for easy identification of contents and stored out of reach of children.

There were hazardous and poisonous materials, including plastic bags, and cleaning supplies which were unlocked and accessible to children in the center.

On **3/7/2023**, you gave us an acceptable written corrective action plan.
