III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

Technical Assistance and Consultation were provided on the following:

- The steps of washing, rinsing, and sanitizing multi-use tables before and after meals and snacks. If the sanitizer is not food-safe, a fourth step of rinsing the table is required.
- As a reminder, at least one fire drill and one tornado drill must be completed before the program ends.
- Immunizations and health appraisals should be obtained when possible, however migrant children fall under R 400.8143(10).

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
