III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8128 Staff; volunteer; tuberculosis.

A center shall keep on file at the center evidence to verify that each child care staff member and each volunteer who has contact with children at least 4 hours perweek for more than 2 consecutive weeks is free from communicable tuberculosis (TB). Verification of TB status is required within 1 year before employment or volunteering.

At the time of the onsite inspection, one minor volunteer, was lacking verification of screening for communicable tuberculosis.

R 400.8131 Professional development requirements.

(12) When the department of licensing and regulatory affairs or the department of education publishes a notice that a new health and safety update document or a new health and safety update training activity has been published on MiRegistry, the licensee shall ensure that all personnel read and acknowledge the document or complete the activity within 6 month of the notice.

At the time of the onsite inspection, Jillian Chiotti-Steinman and Jennifer Campbell, child care staff members, did not have verification of the completed 2021 Health and Safety Refresher training.

R 400.8143 Children's records.

(6) Within 30 days of a child's initial attendance, a center shall obtain, keep on file, and make accessible in the center a record of a physical evaluation of the child that notes any restrictions and is signed by a physician or the physician's designee. An electronic record from a physician's office will be accepted. The physical evaluation must be performed within 1 of the following time limits:

(c) For preschoolers, within the preceding 12 months.

At the time of the onsite inspection, one preschool age child, did not have record of a physical evaluation of the child that notes any restrictions and is signed by a physician or the physician's designee.

- On March 23, 2022, I provided technical assistance to Jillian Chiotti-Steinman regarding ensuring that all child emergency cards have a response in the allergy/special needs section.

A corrective action plan was requested and approved on 03/24/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
