RE: License #: DC320292585
USA Early Child Care Center
2203 Wildner Rd
Sebewaing, MI 48759

Dear Mrs. Ruth:

Attached is the Addendum to the Original Licensing Study Report for the above referenced facility.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (810) 787-7031.

Per MCL 722.113g, this report must be filed in your licensing notebook.

Sincerely,

A handwritten signature in black ink that reads "Erin M. Kidd".

Facility Address:	2203 Wildner Rd Sebewaing, MI 48759
Facility Telephone #:	(989) 883-3140
Capacity:	98
Program Type:	CHILD CARE CENTER

II. Purpose of Addendum

On July 11, 2022, Julie Ruth, licensee, requested a change in outdoor use space.

III. Methodology

07/11/2022-Modification Request Received

07/12/2022-Inspection Completed Onsite

IV. Description of Findings and Conclusions

The terms of the original license were modified on May 6, 2016, August 24, 2016, and July 13, 2022.

USA Early Child Care Center is located at USA Middle School, an operational school building.

The following spaces were previously inspected and approved.

- Room 24 (Toddler Classroom) is 30 ft. x 26 ft., providing a total of 780 square feet. This allows for a total requested capacity of 12 children aged 1-3 years.
- Room 25 (Latch-key) is 30 ft. x 26 ft., providing a total of 780 square feet. This allows for a total capacity of 22 children aged 5-12 years.
- Room 26 Latch-key is 30 ft. x 26 ft., providing a total of 780 square feet. This allows for a total capacity of 22 children aged 5-12 years.
- Room 28 (Infant Classroom) is 31ft. x 30 ft., providing a total of 930 square feet. This allows for a total requested capacity of 12 children aged birth-2 years.
- Media Center (Preschool) is 46 ft. x 32 ft., and 8 ft. x 26 ft., and 27 ft. x 15 ft., providing a total of 2,085 square feet. This allows for a total requested capacity of 30 children aged 3-6 years.

The following rooms are approved as additional child use space and were not used to determine the center's total capacity:

- Work Room (Toddler Changing Room) is 11 ft. x 26 ft., providing a total of 286 square feet. This allows for a total capacity of 6 children aged 1-3 years.

- Cafeteria is 33 ft. x 85 ft., providing a total of 2,805 square feet. If the space only contains children aged 3-4 years, the capacity is 30 children. If the use space only contains children aged 4-12 years, the capacity is 36 children.
- Gym is 96 ft. x 69 ft., providing a total of 6,624 square feet. This space is sufficient for 12 children aged birth-2.5 years. If the use space only contains children aged 2.5-3 years, the capacity is 16 children. If the space only contains children aged 3-4 years, the capacity is 30 children. If the use space only contains children aged 4-12 years, the capacity is 36 children.

On July 12, 2022, I inspected the new outdoor play area. The area is completely fenced and faces the front of the building. The area does not contain any water hazards. Children will cross from the building entrance, across the parking lot to the play area. The area does not have heavy traffic and children will be directly supervised when crossing the parking lot. The area does not contain any commercial equipment. Ms. Ruth will supply outdoor equipment for child care usage. The Infant/Toddler playground will remain at the rear of the building.

The facility has 11 toilets and 11 sinks located throughout the approved child use space. There is ample space and equipment to support the requested capacity of 98 children aged birth-12 years.

The facility had an "A" rated environmental health inspection completed May 19, 2022.

Fire safety inspections were completed at the time of original issuance; new inspections are not required. A lead assessment is not required because the facility was built in 1995.

The licensee designee understands that if there is a mixed age group in any of the above spaces, that the ratio, capacity, and group size is based on the requirement of the youngest child.

The classrooms are furnished with a variety of developmentally appropriate equipment. There is an adequate amount of equipment to support the total capacity of 98 children aged birth-12 years.

Terms:

The facility will provide two snacks daily. Lunch must be provided by the child's parents or may be available for purchase through USA Schools. Transportation to USA Elementary is available through USA Schools

V. Recommendation

I recommend approval of the new outdoor use space at the front of the building.

Erin M. Kidd
