III. Methodology

07/11/2022 Modification Request Received
06/29/2022 Inspection Completed On-Site

IV. Description of Findings and Conclusions

The terms of the original license have been modified on December 18, 2007, August 17, 2020 and July 13, 2022.

Haslett Child Development Center is comprised of five classrooms and a multipurpose room.

Room 1A and Room 1B are separated into classrooms and an eating space.

- Room 1A is 25ft. x 19ft., providing a total of 475 square feet. This accommodates a maximum requested capacity of 10 children birth through 2 years of age.
- Room 1B is 25.5ft x 25ft., providing a total of 637.5 square feet. This accommodates the requested capacity of 12 children 2-3 years of age.
- The eating space is used by both classrooms and is 18.5ft. x 11.5ft. providing a total of 212.75 square feet.
- Room 2 is 28ft. x 18ft., providing a total of 504 square feet. This accommodates the requested capacity of 8 children birth through 2 years of age.
- Room 3 is 29ft. x 19ft., providing a total of 551 square feet. This accommodates a total of 16 children 3-6 years of age.
- Room 4 is 29ft. x 19ft., providing a total of 551 square feet. This accommodates a total of 16 children 3-6 years of age.

The following room is approved as additional child use space and was not used to determine the center's total capacity:

- Multipurpose room is 22ft. x 10ft. plus 36ft. x 16ft., providing a total of 796 square feet. This accommodates a total of 23 children ages 2 ½ -6 years of age. The licensee designee understands that if there is a mixed age group in this room, that the ratio is based on the ratio requirements of the youngest child.

The total space is sufficient for a total center capacity of 62 children, infant through 6 years of age.

There is a total of 8 hand washing sinks and 6 toilets located throughout the center for child use. This supports the center's capacity.

The classrooms are furnished with a variety of developmentally appropriate equipment. There is an adequate amount of equipment to support the center's total capacity.

A fire inspection was completed on 3/15/2022 and an environmental health inspection was completed on 01/28/2022. A lead risk assessment was not required as the building was built in 1987.

Terms:

The center is approved for a total capacity of 62 children age birth through 6 years.

The center is approved for full meal service, providing all meals and snacks.

V. Recommendation

I recommend approval of Room 1B to accommodate children ages 12-36 months and Room 2 to accommodate children birth through 2 years.
