**III. DESCRIPTION OF FINDINGS & CONCLUSIONS**

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.8143 Children's records.**

**(6) Within 30 days of a child's initial attendance, a center shall obtain, keep on file, and make accessible in the center a record of a physical evaluation of the child that notes any restrictions and is signed by a physician or the physician's designee. An electronic record from a physician's office will be accepted. The physical evaluation must be performed within 1 of the following time limits:**

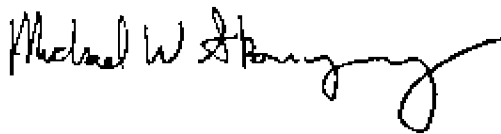

**(c) For preschoolers, within the preceding 12 months.**

5/20 child files reviewed did not have a completed health appraisal within 30 days of admission.

A corrective action plan was requested and approved on 10/20/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

**IV. RECOMMENDATION**

I recommend issuance of a regular license to this child care center.
