II. Purpose of Addendum

I received a modification request from Marka Rupp, program director requesting to use the nap room as a sensory room.

III. Methodology

12/12/2022 – Modification request received.

12/22/2022 – Inspection completed onsite.

IV. Description of Findings and Conclusions

The terms of this license have been modified on 04/25/2018 and on 12/22/2022.

The nap room was re-measured to determine the total capacity of the room, which measured 19.4 ft x 13.9 ft, totaling a square footage of 269.66. This allows for a maximum capacity of 7 children between 2 ½ and 6 years of age. This space was not used to determine the center's capacity as it is used as additional space and will only be used for napping and sensory/gross motor activities.

The center's capacity is 40 children between 2 ½ and 6 years of age. There is one large preschool room that is used for care.

Terms:

The center operates Monday through Friday from 7:30AM until 5:00PM. The center offers full time and part time preschool programming and before and after school care. Parents are responsible for supplying lunches.

V. Recommendation

I recommend approving the change of use space in the nap room to allow for sensory, gross motor activities.
