III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During my onsite inspection I observed large group, free play and lunch time. Interactions between child care staff members and child care children were positive. A rule review was provided in regards to CCBC and playground inspections.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8125

Staff; volunteer; requirements.

(3) All supervised volunteers shall receive a public sex offender registry (PSOR) clearance before having any contact with a child in care. A copy of this clearance must be kept on file at the center.

No supervised volunteers had completed PSOR clearances prior to contact with children as required.

IV. RECOMMENDATION

I recommend issuance of a regular child care license to this center.
