III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

The center provides the children with both structured and freedom of choice learning opportunities. The center has a variety of play and learning equipment. I observed the children engaged in structured learning. I provided a rule review regarding:

- The CCBC background check system.
- The center is not currently using volunteers. If supervised volunteers are used in the future, the supervised volunteers must have a Public Sex Offender Registry (PSOR) clearance completed.
- Different ways to document completed staff trainings, such as providing a certificate.
- The school age health and immunizations acknowledgment form.
- The licensing notebook summary sheet.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
