III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff,

and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

I observed the children engaged in freedom of choice learning, small group time, and large group time. I provided a rule review regarding the use of supervised volunteers, the comprehensive background children including for unsupervised volunteers and the school's teacher helpers, as well as the use of MI Registry for training.

IV. RECOMMENDATION

I recommend renewal of this child care center.
