Findings of the Inspection

Purpose of Addendum: A modification is being completed by the department following a file review showing the listed room sizes as not accurate. Based on the new measurements of the rooms, the centers overall capacity is being lowered from 64 to 59 children ages birth – 12 years.

Findings and Conclusions:

The center’s rooms were re-measured and now reflect a new center capacity of 59 children ages birth to 12 years old. The rooms are listed below. The children may be spread out throughout the center as long as the rooms approved age ranges and individual capacities are not exceeded.

The center continues to have an adequate number of sinks and toilets. The center continues to have an adequate amount of play and learning equipment. The outdoor play area is fenced and is located at the side of the building. New inspections are not required at this time.

If you have questions regarding the report, please contact licensing consultant, Jenny Brundage at (517) 262-9717 or brundagej@michigan.gov. In the event that Jenny Brundage is not available and you

need to speak to someone immediately, please contact the Child Care Licensing Bureau at 517-284-9730.

Description of Facility
The center is in a free-standing building. The building is not considered an active school building.

Approved Child Use Space
The licensee/ licensee designee understands that the ratio of child care staff member to children and the maximum group size is determined by the youngest child in the room. Equipment in the room must be appropriate for the ages of the children in the room.
