10/23/22: Environmental Health Inspection – A rating.
10/31/22: Fire Safety Inspection - “A” rating
11/10/22: Lead Risk Assessment – No lead risk hazards present

IV. Description of Findings and Conclusions

The terms of the original license have been modified on December 8, 2022.

Lil Beginners Learning Center II, LLC is an active child care facility that has been operating since August of 2019. Due to an increase in demand, the center has requested a modification to the terms of their current license to add a GSRP preschool classroom and increase their overall licensed capacity from 34 to 50 children ages birth to 12 years old. The center is located in a one-story freestanding building in the Napoleon Medical Center located in a residential area of Napoleon. The center utilizes four rooms as approved child use space. The approved rooms and room sizes include:

- **Infant room** measures 12 sq. ft. x 18 sq. ft. which equals 216 square feet. This allows for a capacity of 4 children ages birth to 1 years old.
- **Preschool room** consists of one large space that was divided into two separate groups of children, allowing for compliance with the group size requirements. The separate areas measures:
 1. **Area 1:** measures 10 sq. ft. x 18 sq. ft. with an additional 6 sq. ft. x 6 sq. ft. section. The total square footage for this space is 216 sq. ft. and can accommodate 6 children ranging in age 2 ½ - 3 ½ years old.
 2. **Area 2:** measures 17 sq. ft. x 18 sq. ft. with an additional 9 sq. ft. x 7 sq. ft. section. The total square footage for this space is 369 sq. ft. and can accommodate 10 children ranging in age 3 ½ - 5 years old.
- **The toddler room** measures 21.5 sq. ft. x 27.5 sq. ft. which equals 591.3 square feet. This allows for a capacity of 12 children ages 1 to 2 ½ years old.

- **The GSRP/School-Age room** measures 29.5 sq. ft. x. 29 sq. ft. which equals 855.5 square feet. This allows for the requested capacity of 18 children ages 4 to 12 years old.

The center's total requested capacity is 50 children ages birth to 12 years in care at one time. Those 50 children can be spread out in the various rooms as long as there are never more than 50 children in care at one time and the approved capacity for each room is never exceeded.

The facility has 4 toilets and 4 sinks available for children's use. This supports the requested capacity of 50 children.

All of the classrooms are furnished with a variety of developmentally appropriate play and learning equipment conducive to an infant and toddler childcare, preschool, and before and after school care setting. There is an adequate amount of play equipment to support the license capacity of 50 children.

The child care center offers both full and part time child care, preschool, and school-age before and after school programming Monday through Friday from 5:00 am until 6:00 pm, year-round. Transportation services will be provided by the parents and the Napoleon School District. The center provides a morning and afternoon snack for the children. The snacks provided consist of prepackaged and fresh food items. The parents provide breakfast and lunch for the children. The GSRP program will have breakfast and lunch provided to them by Jackson Public Schools. These meals are prepared in a centralized kitchen operated by Jackson Public Schools. There is no swimming offered by the center.

An environmental health inspection of the center was completed on 10/23/22 with an "A" rating. The fire inspection was completed on 10/31/22 with an "A" rating. The center provided a statement signed by a licensed contractor on 11/10/22 indicating that the building was completely renovated therefore no lead risk hazards being present in the facility.

V. Recommendation

approve the addition of the GSRP/School-Age room and increase in the overall licensed capacity from 34 to 50 children ages birth to 12 years old.

12/8/2022

Timothy Swope
Licensing Consultant
