Findings of the Inspection

Purpose of Addendum: The licensee designee is requesting to change the ages approved in each room.

Findings and Conclusions: The center continues to use the same pre-approved four rooms for child care.

- Room 1 is approved for 4 infants and toddlers.
- Room 2 has two areas. Area one is approved for 4 infants and toddlers. Area two is approved for 10 children ages 2 1/2 years and older.
- Room 3 is approved for 16 children ages 2 1/2 years and older.
- Room 4 is approved for 18 children ages 3 years and older.

Total Capacity remains at 52 children at one time.

The 52 children may spread out in the various rooms as long as there are never more than 52 children in care at one time and the approved capacity and age ranges for each room is never exceeded.

The rooms are furnished with a variety of play and learning equipment. The center has 4 toilets and 4 sinks, which support the requested capacity.

A new Environment Health Inspection was completed with an "A" rating. A new fire inspection was not required as Rooms 1-4 were previously approved for all age children. A passing lead risk assessment was previously approved.

If you have questions regarding the report, please contact licensing consultant, Jenny Brundage at (517) 262-9717 or brundagej@michigan.gov. In the event that Jenny Brundage is not available and you need to speak to someone immediately, please contact the Child Care Licensing Bureau at 517-284-9730.

Description of Facility
The center is located in a one-story freestanding building. The center is not located inside an active school.

Approved Child Use Space
The licensee/ licensee designee understands that the ratio of child care staff member to children and the maximum group size is determined by the youngest child in the room. Equipment in the room must be appropriate for the ages of the children in the room.
