Dear Ms. Hayes,

This letter is to advise you that the 2/26/2024 corrective action plan you submitted, regarding each rule violation cited in the recently completed Inspection, is approved.

You can find a copy of this corrective action approval letter and the associated report on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of each type of report and corrective action plans can be found under [Overview of Licensing Reports](#).

Violation cited	Noncompliance observed	Plan to correct	Date to be completed
R 400.8170(11)	The outdoor play area contained a dome climber and a rock climber that have not been inspected by a certified playground inspector. The dome climber and rock climber are not approved for child care use until a passing playground inspection has been completed.	The children will not use the equipment until completion of a playground inspection. Any new pieces will come with approval from the installer.	3/26/24

It is expected that the corrective action plan will be implemented within the time frames as outlined in your plan.

A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

The office provides technical assistance to meet the licensing requirements and consultation to improve services. Please contact Jenny Brundage at (517) 262-9717 or
