III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

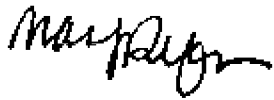

During my on-site inspection I observed academic activities, arts and crafts activities, outdoor play, snack service, circle time, literacy activities, children's arrival and departure, and positive and nurturing interactions between staff and child care children.

Technical assistance and consultation was provided regarding the required postings. This includes the no smoking/no vaping sign, the criminal history posting, and the emergency numbers posting at each center phone.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care facility.
