Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the on-site inspection I observed arrival, dinner, homework time, art, gym time, and dismissal. Child care staff ensured they and children were following hand washing and sanitization requirements. Staff ensured they were following ratio and group size requirements. Staff interacted with children in a positive and friendly manner. They were providing appropriate care and supervision.

Activities presented were age-appropriate and the children seemed engaged. Center, staff, and child records were organized, complete, and made readily available.
