III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8315 Food and equipment storage.

(1) Each refrigerator must have an accurate working thermometer indicating a temperature of 41 degrees Fahrenheit or below.

There was no thermometer in the refrigerator of the Preschool 3's classroom or the Infant classroom.

R 400.8340 Food services and nutrition; provided by parents.

(7) Milk and other beverages furnished in a multi-day supply must be labeled with the child's first and last name and the date of opening and be returned to the parent or discarded 7 days after opening.

The bottles in the Preschool 3's classroom and the Infant classroom were not labeled with child's first and last name.

A corrective action plan was requested and approved on 07/11/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.
