	the sudden infant death syndrome and use of safe sleep practices on 04/22/2021.		
R400.8131 (3) Professional development requirements.	One of the eight child care staff members (C.M.) did not have training on prevention of shaken baby syndrome, abusive head trauma and child maltreatment, and recognition and reporting of child abuse and neglect.	C.M. and all new child care staff members will complete the training on prevention of shaken baby syndrome, abusive head trauma and child maltreatment, and recognition and reporting of child abuse and neglect (part of the Health and Safety training Part I and Part II during orientation).	Immediately.
R400.8131 (4) Professional development requirements.	One of the eight child care staff members (C.M.) did not have training on prevention and control of infectious disease training, including immunizations.	C.M. and all new child care staff members will complete the training on prevention and control of infectious disease training, including immunizations before starting.	Immediately.
R400.8335 (8) Food services and nutrition; provided by center.	I observed two one- gallon container of milk in the Preschool and Toddler Classrooms. Both containers were opened but neither one were labeled with the date opened.	The container of opened milk will be dated.	Immediately.
R400.8385 Poisonous or toxic materials.	During the inspection, I observed a bottle of Bleach stored on the shelf in the bathroom stall where it is accessible to the children.	Bleach will be removed and stored out of reach of children.	Immediately.

It is expected that the corrective action plan will be implemented within the time frames as outlined in your plan.

A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.
