III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8131

Professional development requirements.

(12) When the department of licensing and regulatory affairs or the department of education publishes a notice that a new health and safety update document or a new health and safety update training activity has been published on MiRegistry, the licensee shall ensure that all personnel read and acknowledge the document or complete the activity within 6 month of the notice.

During a review of the records, I found that staff had not completed updated Health and Safety courses.

R 400.8131

Professional development requirements.

(6) All child care staff members who work directly with children shall complete 16 clock hours of professional development annually on topics relevant to job responsibilities that include, but are not limited to, any of the following subjects:

- (a) Child development and learning.
- (b) Health, safety, and nutrition.
- (c) Family and community collaboration.
- (d) Program management.
- (e) Teaching and learning.
- (f) Observation, documentation, and assessment.
- (g) Interactions and guidance.
- (h) Child care center administrative rules.

During a review of the records, I found that staff had not completed 16 clock hours of professional development.

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan, I recommend the regular license be renewed.
