## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

During the inspection I spoke with staff about creating an organizational profile on miregistry to keep track of all health and safety trainings completed by staff.

**IV. RECOMMENDATION**

I recommend the license be renewed.
