III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:	
R 400.8134	Hand washing.
	(3) Staff and volunteers shall ensure that children wash their hands at all of the following times: (a) Before meals, snacks, or food preparation experiences.
I observed during the onsite inspection the following: children washed their hands, then sat on the floor (playing and touching the floor, etc.) Children did not wash their hands after sitting on the floor and getting their snacks , sitting at the table eating.	
R 400.8143	Children's records.
	(6) Within 30 days of a child's initial attendance, a center shall obtain, keep on file, and make accessible in the center a record of a physical evaluation of the child that notes any restrictions and is signed by a physician or the physician's designee. An electronic record from a physician's office will be accepted. The physical evaluation must be performed within 1 of the following time limits: (c) For preschoolers, within the preceding 12 months.
I observed during the onsite inspection and review of the records on 10/25/2022, that Child A (4 years-old male) did not have physical evaluation on file.
