08/17/2022 Inspection Completed On-site

08/24/2022 Modification Request Received – Licensee designee sent modification form by email.

IV. Description of Findings and Conclusions

The terms of the original license has been modified on 09/05/2022, 06/29/2017, and 01/05/2016.

Ms. Kramer has requested the addition of a third nursery room and increase in capacity from 90 to 102 child care children.

On 08/17/2022, an onsite inspection was completed. Nursery room #3 measured 14 feet by 65 feet for a total of 910 square feet of usable space. The room capacity is 18 based on 50 square feet per child; however, the max group size is 12 children based on the requested age range birth to 18 months. A sink was also installed in the room.

The following rooms were previously measured and approved for use:

The Nursery room has 334 square feet of usable child care space. The room capacity is 6 children ages birth through 14 months. The room capacity is based on 50 square feet per child.

The Toddler classroom has 397 square feet of usable child care space. The room capacity is 8 children ages 22 months through 33 months. The room capacity is based on 50 square feet per child.

The Preschool classroom has 810 square feet of usable child care space. The room capacity is 23 children ages 3 ½ through 8 years. The room capacity is based on 35 square feet per child.

The Waddler classroom measures 14 feet by 32 feet for a total of 448 square feet of usable child care space. The room capacity is 9 children ages 14 months through 22 months of age. The room capacity is based on 50 square feet per child.

The Young Preschool classroom measures 14 feet by 30 feet for a total of 420 square feet of usable child care space. The room capacity is 12 children ages 2 ½ - 3 ½ years old. The room capacity is based on 35 square feet per child.

The Nursery Room 2 measures 19.8 feet by 21.5 feet for a total of 425 square feet of usable child care space. The room capacity based on 50 square feet per child is 8 children under 30 months of age.

The Young Preschool 2 room measure 19.8 feet by 21.5 feet for a total of 425 square feet of usable child care space. The room capacity based on 35 square feet is 12 children over 30 months. The licensee has requested a room capacity of 8 children at any one time.

The Preschool 3 classroom measures 23.6 feet by 21.5 feet for a total of 507 square feet of usable child care space. The room capacity is 14 children over 30 months.

A new toilet and sink was installed outside the classroom; there are 7 toilets and 10 sinks available for children's use. The toilets and sinks are sufficient for a maximum capacity of 102.

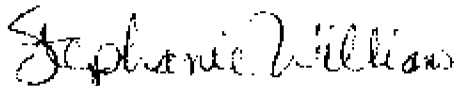

Environmental health (06/21/2022) and fire safety inspections (07/05/2022) were conducted and were approved for the additional Nursery room.

There is adequate amount of equipment available for the increase in capacity.

The total center capacity is 102 children ages birth through 8 years

V. Recommendation

I recommend the addition of Nursery room #3 and an increase in capacity from 90 to 102 child care children.

09/05/2022
