III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8131 Professional development requirements.

(12) When the department of licensing and regulatory affairs or the department of education publishes a notice that a new health and safety update document or a new health and safety update training activity has been published on MiRegistry, the licensee shall ensure that all personnel read and acknowledge the document or complete the activity within 6 month of the notice.

Child care staff members Y. Brister, S. Josey, and T. Pedersen did not complete the 2020 Health & Safety refresher courses; and, child care staff member K. Rucker did not complete the 2021 Health & Safety refresher course.

A corrective action plan was requested and approved on 07/14/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

Technical Assistance: I provided technical assistance to Ms. Rucker in regard to ensuring that the center's furnace and water heater inspections need to be completed every 2 years at renewal period per **R400.8510(5)(6)**.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
