**III. DESCRIPTION OF FINDINGS & CONCLUSIONS**

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

**MCL 722.115n      Application for or renewal of license to operate child care center, group child care home, or family child care home; household member or child care staff member; criminal history check; requirements; duties of department.**

1) Except as otherwise provided in subsection (13), when a person, partnership, firm, corporation, association, governmental organization, or nongovernmental organization applies for or applies to renew a license to operate a child care center, group child care home, or family child care home under section 5m and before a group child care home or family child care home allows an individual to be a member of the household, or a child care center, group child care home, or family child care home allows an individual to become a child care staff member, the department shall do all of the following:

(a) Review its database of individuals with previous disciplinary action within a child care center, group child care home, or family child care home or an adult foster care facility.

(b) Conduct a search of the individual through the national sex offender registry.

(c) Request a search of the individual through all state criminal registries or repositories for any states of residence in the past 5 years.

(d) Request that the department of state police perform a criminal history check on the individual, child care staff member, or adult member of the household.

The center did not conduct a comprehensive background check on one staff member prior to that staff member caring for children.

**R 400.8128      Staff; volunteer; tuberculosis.**

A center shall keep on file at the center evidence to verify that each child care staff member and each volunteer who has contact with children at least 4 hours per week for more than 2 consecutive weeks is free from communicable tuberculosis (TB). Verification of TB status is required within 1 year before employment or volunteering.

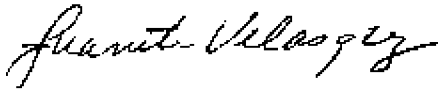

One staff member did not have documentation of a tb test conducted prior to working with children.

A corrective action plan was requested and approved on 12/01/2020. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify

compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

#### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
