## **IV. Description of Findings and Conclusions**

The terms of the original license have been modified on January 5, 2022, and August 19, 2021.

The GSRP classroom #1 (2 ½ and older) measured 28 square feet by 20 square feet for a total of 560 square feet. The room capacity of 16 child care children based on 35 square feet per child.

The activity room is located within the GSRP classroom and measures 22 square feet by 11 square feet for a total of 242 square feet. The room capacity is 7 children at any one time. The room is not counted towards overall capacity.

The following rooms were previously measured and approved for child care use:

The Infant/toddler room 2 (infants to 18 months) measured 24 square feet by 11 square feet (264 square feet) plus 4 square feet by 15 square feet (60) for a total of 324 square feet. The room capacity of 6 child care children based on 50 square feet per child. The room has one sink in the kitchenette area which will be used for food prep only. There is a restroom located in the room where diapering and handwashing will be done, with one toilet and sink.

The gross motor room measured 11 square feet x 10 square feet for a total of (110 square feet) will not be counted in the overall capacity of the center. The room can hold 2 child care children at any one time based on 50 square feet per child.

The infant sleeping room will not be counted in the overall capacity of the center. The infant sleeping room for infant room 1 will hold three cribs and the fourth crib will be in the infant room.

Bumble Bee (Preschool Room) measures 21 feet by 11 feet for a total of 231 square feet of usable child care space. The room will be used by children ages 3 ½ to 5 years old. The room capacity is 7 children based on 35 square feet per child.

Activities Room measures 18 feet by 8 feet for a total of 144 square feet of usable child care space. The activity room is a multi-purpose room used by different classrooms that will be used by the child care children who are 30 months to 5 years of age for arts, crafts, and other activities. The room will not be counted towards the center's overall capacity.

Activities Room II measures 13 feet by 11 for a total of 143 square feet of usable child care space. The activity room will be used for board games, crafts, arts, and lunch/ snack room as well for school age children only. This room capacity is 4 based on 35 square feet per child. If the enrollment in each of the other rooms is at their max, there can only be 2 school age children in this room at any one time as the total capacity of the center is 52.

Dragon Fly (Young Preschool Room) measures 18 feet by 15 feet for a total of 270 square feet of usable child care space. The room will be used by children ages 30 months-3 ½ years of age. The room capacity is 8 children based on 35 square feet per child.

Lady Bug (Infant Room) measures 21 feet by 10 feet for a total of 210 square feet of usable child care space. The room will be used by children from birth to 18 months. The room capacity is 4 children based on 50 square feet per child.

Butterfly (Toddlers Room) measures 13 feet by 14 feet and 20 feet by 14 feet for a total of 462 square feet of usable child care space. The room will be used by children ages 18 months-30 months of age. The room capacity is 9 children based on 50 square feet per child.

There are a total of 15 sinks and 7 toilets to accommodate 52 child care children. The total approved space is sufficient for an overall center capacity of 52 children ages birth to 12 years.

## V. Recommendation

I recommend the approval.
