RE: License #:	DC500388022 <b>Schofield Early Childhood Center</b> <b>21555 Warner</b> <b>Warren, MI 48091</b>
----------------	--

Dear Ms. Whitfield:

Attached is the Addendum to the Original Licensing Study Report for the above referenced facility.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (810) 787-7031.

Per MCL 722.113g, this report must be filed in your licensing notebook.

Sincerely,

Stephanie A. Williams, Licensing Consultant  
Bureau of Community and Health Systems  
4809 Clio Road  
Flint, MI 48504

<b>Program Type:</b>	CHILD CARE CENTER

## **II. Purpose of Addendum**

Ms. LeaAnna Whitfield, licensee designee/program director requested a modification to increase capacity from 48 to 64 and add room 112 for a Great Start to Readiness Program (GSRP) classroom.

## **III. Methodology**

08/16/2021 – Contact Document Received – Modification Request Received: request for an increase in capacity and the addition of room 112 for a GSRP classroom.

09/28/2021 – Inspection Completed On-site

10/20/2021 – Document Received - Supportive documents received from licensee designee.

11/29/2021 – Document Received - Supportive documents received from licensee designee.

12/09/2021 – Document Received - Pictures of room set-up received from licensee designee.

12/10/2021 – Document Received - Email received from licensee designee with copy of inventory list.

## **IV. Description of Findings and Conclusions**

The modification will approve the increase in capacity from 48 to 64 with the addition of a GSRP classroom, room 112.

The GSRP classroom (room #112) measured 30 square feet by 27 square feet for a total of 810 square feet. The room capacity is 23 child care children based on 35 square feet per child. Although the room can accommodate 23 child care children the licensee has requested the room capacity for 16 child care children. The classroom has access to two toilets and one sink in the classroom.

The Ms. Whitfield provided an inventory list and there is sufficient child care equipment for the room.

The following rooms were previously measured and approved for child care use.

Classroom#114 (GSRP) measures 27 feet by 29 feet for a total of 783 square feet of usable child care space. The room is approved for children age 2 ½ and older. The center will care for children who will be 4 years-old by September 1. Although the room capacity is 22 children based on 35 square feet per child, the licensee designee has requested a room capacity of 16.

Classroom#115 (GSRP) measures 27 feet by 29 feet for a total of 783 square feet of usable child care space. The room is approved for children aged 2 ½ and older. The center will care for children who will be 4 years-old by September 1. Although the room capacity is 22 children based on 35 square feet per child, the licensee designee has requested a room capacity of 16.

Classroom#117 (GSRP) measures 27 feet by 29 feet for a total of 783 square feet of usable child care space. The room is approved for children age 2 ½ and older. The center will care for children who will be 4 years-old by September 1. Although the room capacity is 22 children based on 35 square feet per child, the licensee designee has requested a room capacity of 16.

Classroom#100 (Gross Motor Room) measures 43 feet by 26 feet for a total of 1,118 square feet of usable child care space. The room is approved for 31 children age 2 ½ years of age and older. The room is a multi-purpose play room used by different classrooms. The room will not be counted towards the center's overall capacity.

Media Room measures 68 feet by 26 feet for a total of 1,768 square feet of usable child care space. The room approved for 50 children aged 2 ½ and older. The room will be used for media related activities, reading, movies, a parent meetings etc. The room will not be counted towards the center's overall capacity.

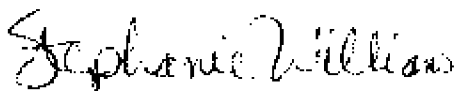

Gym measures 70 feet by 50 feet and for a total of 3,500 square feet of usable child care space. The room is approved for 100 children aged 2 ½ and older. This room will be used as a multi-purpose room as well and used by different classrooms. The room will not be counted towards the center's overall capacity.

There are 7 sinks and 13 toilets available for child care use. This is sufficient for the requested capacity of 48 children age 2 ½ and older.

## V. Recommendation

I recommend the following:

- Increase in capacity from 48 to 64 child care children.
- The addition of room 112 for GSRP program.

01/05/2021
