RE: License #: DC500388299  
 Investigation #: 2023D0023019  
 Star Bright Child Care Center

Dear Ms. Yousif:

I conducted a special investigation because the child care licensing division received information regarding your facility that related to licensing rules or law. The information was related to the following:

<b>R 400.8182(7)</b>	<b>Ratio and group size requirements.</b>
<b>R 400.8137(6)</b>	<b>Diapering; toileting.</b>
<b>R 400.8155(4)</b>	<b>Child accidents and incidents; child and staff illness.</b>

The details of the information are in the attached report. To investigate:

- I interviewed: program director/licensee designee, child care staff member, and parents.
- I completed on-site inspections on the following dates: 05/15/2023.

As a result of this investigation, I recommend no change to the current license status. I did not find any violations. The special investigation report is attached.

GRETCHEN WHITMER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS  
LANSING

MARLON I. BROWN, DPA  
ACTING DIRECTOR

During this special investigation:	Yes	No
A rule or law violation was found and a serious injury or death occurred.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
A rule or law violation was found and abuse and/or neglect of a child occurred.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

This report and any related corrective action plans must be filed in your licensing notebook. This report and any related corrective action plans will be online for parents to review under the [Statewide Search for Licensed Child Care Centers and Homes](#).

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (517) 284-9730.

Sincerely,

Linda Pavlovski, Licensing Consultant

## II. ALLEGATION(S)

	Violation Established?
Child A (female, 27 months old) is under 30 months and is placed in the preschool classroom.	No
On 03/30/2023 there was concern that Child A's diaper was not changed upon pick up.	No
Center is not notifying parents when a communicable disease is known.	No

## III. METHODOLOGY

05/12/2023	Special Investigation Intake 2023D0023019
05/13/2023	Special Investigation Initiated - Telephone Interviewed Child A's Mother.
05/15/2023	Inspection Completed On-site Onsite inspection from 12:50 p.m. - 4:00 p.m.
08/07/2023	Contact - Telephone call made Interviewed enrolled parents.
08/07/2023	Exit Conference Exit conference with Program Director/Licensee Designee Rojan Yousif.

**ALLEGATION:** Child A (female, 27 months old) is under 30 months and is placed in the preschool classroom.

### INVESTIGATION:

On 05/13/2023, I interviewed Child A's Mother. Child A's Mother explained that Child A was enrolled and started child care with Star Bright mid-February 2023. Based on Child A's age, Child A was placed in the toddler room upon enrollment and attends Monday, Tuesday, and Wednesday typically from 1:30 p.m. to 6:00 p.m. Recently Child A has been seen placed with the preschool children/room for naps and play. Child A is under 30 months old, and it was agreed that Child A stays in her designated toddler room. Child A's Mother does not understand why Child A

moves from the toddler room to the preschool room and does not feel like mixing the ages of the children is appropriate.

On 05/15/2023, I conducted an unannounced onsite inspection where I observed all the classrooms and interviewed child care staff members, including Licensee Designee/Program Director Rojan Yousif.

I observed all the child care rooms during the onsite inspection:

- Infant Room is approved for children from four weeks old to 12 months old and there was a total of seven children and two child care staff members present with the youngest child in the classroom being seven weeks old.
- Toddler Room is approved for children from 13 months old to 30 months old and there was a total of seven children and two child care staff members present with the youngest child in the classroom being 14 months old.
- Young Preschool Room is approved for children 2 ½ years old to three years old and there was a total of five children with one child care staff member with the youngest child in the classroom being 2 ½ years old.
- Preschool Room is approved for children three years old to six years old and there was a total of nine children and one child care staff member present with the youngest in the classroom being three years old.

All the classrooms were within their approved ratio and group sizes, and Child A was observed in the Toddler Room. There were no classrooms that had children of mixed ages in the same room. The child care staff members in the toddler room, Child Care Staff Member 1, and Child Care Staff Member 2, explained that Child A's assigned classroom is in the toddler room. Child A is dropped off in the afternoon three times a week and it is typically during nap time. Sometimes Child A does not nap and rests with the children in the young preschool room depending on staffing and ratio.

I interviewed both Program Director Ms. Yousif and Child Care Staff Member 3 during the onsite inspection. Ms. Yousif explained that Child Care Staff Member 3 is the appointed child care staff member that assists her when she is not in the center. Both Ms. Yousif and Child Care Staff Member 3 stated that Child A is almost at the age where she can be transitioned to the Young Preschool Room once she turns 2 ½ years old, and they have been placing her in that room for short periods of times when in ratio to assist her in that transition. Also, Child A typically arrives in the middle of nap time and due to ratio, they at times have her in the Young Preschool area until the children wake up.

On 08/07/2023, I interviewed enrolled parents Child B's Mother, Child C & D's Mother, Child E & F's Mother, and Child G's Mother. Child B's Mother, Child C & D's Mother, Child E & F's Mother, and Child G's Mother all consistently stated that they have no concerns with ratio and group size of their children's placements at the center.

<b>APPLICABLE RULE</b>	
<b>R 400.8182</b>	<b>Ratio and group size requirements.</b>
	<b>(7) If there are children of mixed ages in the same room or well-defined space, then the ratio and group size is determined by the age of the youngest child, unless each group of children is clearly separated and the appropriate child care staff member-to-child ratios and group sizes, if applicable, for each age group are maintained.</b>
<b>ANALYSIS:</b>	During the onsite inspection I observed that all the classrooms were within their approved ratio and group sizes, and Child A was observed in the Toddler Room. There were no classrooms that had children of mixed ages in the same room. Program Director Ms. Yousif and her child care staff members understand and know that when they do have children of mixed ages in the same room that they must be in compliance with the ratio and group size requirements of the youngest child of that room.
<b>CONCLUSION:</b>	<b>VIOLATION NOT ESTABLISHED</b>

**ALLEGATION:** On 03/30/2023, there was concern that Child A's diaper was not changed upon pick up.

**INVESTIGATION:**

On 05/13/2023, I interviewed Child A's Mother. Child A's Mother explained that on 03/30/2023 her husband went to pick up Child A from the center at 6:23 p.m. and noticed as they were going home that Child A's diaper was soiled. There is concern that Child A's diaper was not checked on that day.

On 05/15/2023, during the onsite inspection I interviewed Child Care Staff Member 1 in the toddler room. Child Care Staff Member 1 explained that she is the lead child care staff member in the toddler room and her and the assistant child care staff members regularly check and change the children's diapers. While in the toddler room, Child Care Staff Member 1 presented verification of the daily recordings in each of the children's toddler's log where they document the children's feeding, diaper changes, and sleeping times for the children present in the room today. Per the daily recording log, child care staff members are consistently changing diapers. Regarding Child A, Child Care Staff Member 1 remembers changing Child A before she was being picked up by her parent and apparently had a soiled diaper. There was a short period of time between when Child A's diaper was changed and when

Child A's parent arrived. Child Care Staff Member 1 would never intentionally leave a child in wet or soiled diapers.

During the onsite, Child Care Staff Member 3 and Ms. Yousif were able to pull past children's records and provided me with verification from Child A's daily toddler log sheet documented and signed by Child Care Staff Member 1 on 03/30/2023 that Child A's diaper was checked and changed at 11:55 a.m., 2:58 p.m., 4:40 p.m., and 6:15 p.m. Child Care Staff Member 3 stated that she knows that Child A's Mother called the center that day and wanted to know why Child A's diaper was soiled upon pick up. It was explained that Child A and all the children's diapers are checked and changed regularly, and Child A must have just soiled herself upon pick up as she was changed before Child A's parent arrived at the center. Child Care Staff Member 3 discussed with the child care staff members in the toddler room to make sure when the parents arrive to do a last check and change before the child is released.

On 08/07/2023, I interviewed enrolled parents Child B's Mother, Child C & D's Mother, Child E & F's Mother, and Child G's Mother. Child B's Mother, Child C & D's Mother, Child E & F's Mother, and Child G's Mother all reported that they have never had any concerns with the diapering at the center. The children are frequently checked and changed, and the child care staff members provide copies of daily logs to the parents.

<b>APPLICABLE RULE</b>	
<b>R 400.8137</b>	<b>Diapering; toileting.</b>
	<b>(6) Diapers and training pants must be checked frequently and changed when wet or soiled.</b>
<b>ANALYSIS:</b>	On 03/30/2023, there is verification from Child A's daily toddler log sheet documented and signed by Child Care Staff Member 1 that Child A's diaper was checked, changed at 11:55 a.m., 2:58 p.m., 4:40 p.m., and 6:15 p.m.
<b>CONCLUSION:</b>	<b>VIOLATION NOT ESTABLISHED</b>

**ALLEGATION:** Center is not notifying parents when a communicable disease is known.

**INVESTIGATION:**

On 05/13/2023, I interviewed Child A's Mother. Child A's Mother stated that Child A was not at the center from 03/14/2023 – 03/27/2023, as they did not need care during that period. Upon returning and dropping off Child A, Child Care Staff Member 3 provided a copy of a letter emailed to the parents on 03/20/2023.

On 05/15/2023, during the onsite inspection I interviewed Child Care Staff Member 3 and Ms. Yousif. Ms. Yousif explained that the center does their best to notify parents as soon as they are made aware that an enrolled child or an enrolled child's family member has a communicable disease. At the end of March there was a case of Hand, Foot, and Mouth Disease that was confirmed with an enrolled family's older sibling that was not attending care. As a precaution, notifications as well as informational sheets were provided to the parents. Child Care Staff Member 3 was able to provide a copy of the notification letter dated 03/20/2023 and the informational sheet provided to the parents.

On 08/07/2023, I interviewed enrolled parents Child B's Mother, Child C & D's Mother, Child E & F's Mother, and Child G's Mother. Child B's Mother, Child C & D's Mother, Child E & F's Mother, and Child G's Mother all consistently stated that any time the center was made aware of a child or staff illness that was communicable, they have properly notified the parents and provided informational sheets to assist in the matter. There was communication in March and the center closed during the weekend to clean the center as an extra precaution.

On 08/07/2023, I conducted an exit conference with Program Director/Licensee Designee Rojan Yousif. I informed Ms. Yousif that there were no licensing violations found during the investigation.

<b>APPLICABLE RULE</b>	
<b>R 400.8155</b>	<b>Child accidents and incidents; child and staff illness.</b>
	<b>(4) If a center becomes aware that a staff member, volunteer, or child in care has contracted a communicable disease, then the center shall notify parents and provide all of the following information:</b> <b>(a) The name of the communicable disease the children were exposed to.</b> <b>(b) The symptoms of the disease.</b> <b>(c) Prevention measures as recommended by the U.S. Centers for Disease Control and Prevention (CDC) at the following website:</b> <b><a href="https://www.cdc.gov/DiseasesConditions">https://www.cdc.gov/DiseasesConditions</a>.</b>

<b>ANALYSIS:</b>	Based on the parent-center documentation reviewed and parent interviews, the center properly notifies parents when they are made aware of a staff member, volunteer, or a child in care has contracted a communicable disease.
<b>CONCLUSION:</b>	<b>VIOLATION NOT ESTABLISHED</b>

**IV. RECOMMENDATION**

I recommend no change in the license status.
