II. Purpose of Addendum

The licensee has requested the approval of room 306 for an additional GSRP classroom.

III. Methodology

08/31/2022 Modification request received-written.
09/15/2022 Inspection completed-onsite.
09/15/2022 Inspection completed-full compliance.
10/17/2022 Contact-document received. Preschool playground inspection report.

IV. Description of Findings and Conclusions

Kment Elementary is a public elementary school owned and operated by Roseville Community Schools.

The licensee has requested approval of the following room:

Room 306 measures 38 feet by 25 feet for a total of 950 square feet of usable child care space. The room capacity is 27 children over 4 years of age. The licensee has requested a room capacity of 16 children to align with GSRP standards.

The following rooms were previously approved for child care use:

Room 307 measures 38 feet by 25 feet for a total of 950 square feet of usable child care space. The room capacity is 27 children over 4 years of age. The licensee has requested a room capacity of 16 children to align with GSRP standards.

The cafeteria measures 41 feet by 68 feet for a total of 2788 square feet of usable child care space. The room capacity is 80 children over 4 years of age.

The gymnasium measure 55 feet by 78 feet for a total of 4290 square feet of usable child care space. The room capacity is 123 children over 4 years of age.

The licensee has requested that the center capacity remain at 120 children ages 4 years to 12 years.

The licensee has submitted an updated equipment inventory for the GSRP classroom. There is an adequate and varied supply of developmentally appropriate equipment and furniture for the new GSRP classroom and the center's overall capacity of 120.

There are eight toilets, four urinals and six sinks in the immediate vicinity of the gymnasium and cafeteria. There is one toilet and one sink located in each

preschool classroom and an additional four toilets, two urinals and four sinks located within close proximity to the preschool classrooms. The toilets and sinks are sufficient for the requested capacity of 120.

The licensee has provided documentation that the building was built after 1978. Therefore, a lead hazard risk assessment was not required.

An environmental health inspection was conducted at the time of original issuance. The new classroom is similar to rooms previously inspected by the health department; therefore, a new environmental health inspection was not required.

On 09/06/2018, the playground safety inspection was conducted by a certified public playground inspector. The school age playground was in compliance with the 2010 Edition of the Playground for Public Safety Handbook. The school age playground is not approved for preschoolers.

On 06/30/2022, a playground safety inspection was conducted of a new preschool play structure. The playground was found to be in compliance with the 2010 Edition of the Playground for Public Safety Handbook.
