III. Methodology

08/01/2022 Contact- Document received
Modification request
08/18/2022 Inspection on-site
08/18/2022 Inspection on-site Full Compliance

IV. Description of Findings and Conclusions

On August 18, 2022, I conducted an inspection and did a remeasure of the child approved classrooms. The Original report classroom measurements were taken from the previous owner's report on an existing center. The current numbers reflect new room numbers for a different age group of children.

The following are approved program specific rooms:

Room 1 is 24 feet x 15 feet + 9 feet x 18 feet, providing a total of 522 square feet of useable space. This accommodates a capacity of 15 children ages 2 ½ years and older.

Room 2 is 18 feet x 21 feet, providing a total of 378 square feet of useable space. This accommodates a capacity of 8 children ages 2 ½ years and younger. (A capacity of 11 children for children ages 2 ½ years and older.)

Room 3 is 20 feet x 22 + 7 feet x 26 feet, providing a total of 622 square feet of useable space. This accommodates a capacity of 18 children ages 2 ½ years and older.

Room 4 is 36 feet x 16 feet, providing a total of 576 square feet of useable space. This accommodates a capacity of 16 children ages 2 ½ years and older.

Room 5 is 19 feet x 36 feet + 6 feet x 8 feet, providing a total of 732 square feet of useable space. This accommodates a capacity of 21 children ages 2 ½ years and older.

Room 6 is 8 feet x 9 feet + 29 feet x 15 feet + 22 feet x 21 feet, providing a total of 969 square feet of useable space. This accommodates a capacity of 28 children ages 2 ½ years and older.

Room 7 is 17 feet x 22 feet + 12 feet x 12 feet, providing a total of 518 square feet of useable space. This accommodates a capacity of 15 children ages 2 ½ years and older.

Room 8 is 29 feet x 26 feet + 11 feet x 19 feet, providing a total of 963 square feet of useable space. This accommodates a capacity of 28 children ages 2 ½ years and older.

The total capacity approved went from 104 children to 149 children at any one time.

The following rooms have been approved for use as non-program specific rooms and do not count in capacity:

Library is 12 feet x 16 feet, providing a total of 192 square feet of useable space. This accommodates a capacity of 5 children ages 2 ½ years and older.

Art Gallery is 14 feet x 12 feet, providing a total of 168 square feet of useable space. This accommodates a capacity of 5 children ages 2 ½ years and older.

There are a total of 14 toilets and 17 sinks. That number supports a capacity of 149 children.

All rooms, except room 7, have an attached restroom.

The program will now be for children ages 2 years and older and offers preschool, food service and limited school transportation.

The approved outdoor playground will still be used and exceeds the required 1200 square feet.

Fire, Lead and Health inspections were completed in 2020 all with "A" ratings.

V. Recommendation

I recommend that the license be modified to change the age range from birth to 2 ½ years-old to 2 years-old to 12 years-old and increase capacity from 104 to 149 children.

8/19/22

Jennifer DeMuyck
