Dear Ms. Middaugh:

This letter is to advise you that the 06/30/2023 corrective action plan you submitted, regarding each rule violation cited in the recently completed Renewal Licensing Study Report, is approved.

You can find a copy of this corrective action approval letter and the associated report on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of each type of report and corrective action plans can be found under [Overview of Licensing Reports](#).

| Violation cited | Noncompliance observed | Plan to correct | Date to be completed |
|-----------------|---|---|----------------------|
| R 400.8170 | During the inspection I observed that the play area did not have the correct amount of loose fill for cushioning. | Administration will rake area and add fill to create the required amount of loose fill for area. | 7/28/23 |
| R 400.8173 | The gate to the outdoor play area sticks and would be difficult to open in the event of an emergency. | A new gate has been ordered and the children will continue to not use the area until the gate (and lock) have been correctly installed. | 7/17/23 |
| R 400.8350 | I observed several female children washing hands in the same single use bathroom that another child | Staff have been reminded to use the single use bathroom for one child only and that children | Immediately |

| | was trying to use as a bathroom. Privacy was not maintained by staff. | washing hands for lunch can use other sinks in the room. | |
| R 400. 8380 | During the inspection period that covered two days, I found an egress door would stick and become inoperable during hot weather. In the fire emergency/evacuation plan toddlers use this door as the closest exit. | Administration is researching and obtaining quotes to come replace the door and fix the framing. Once purchased the door will be installed. | 1 to 2 months |
