III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Description of Facility

Little Conqueror's Daycare is located in Conquerors Church in Roseville. It is comprised of a large child care room that is divided into two classrooms by shelves. The center also uses the Great Room located in the church.

Approved space (room numbers, sizes, capacity and ages of children for which each room/well-defined space is approved, etc.):

20+

The Toddler A side of the child care room measures 19.5 feet x 24.8 and 19 feet x 8.2 feet, providing a total of 639 square feet. This accommodates the requested capacity of 12 children 18 months through 30 months.

The Toddler B side of the child care room measures 24.8 feet x 18 feet, providing a total of 446 square feet. This accommodates the requested capacity of 13 children over 30 months of age. The licensee is aware that when there are mixed ages in the room, the ratio is based on the ratio requirements of the youngest child present.

A portion of the Great Room has been sectioned off for school age child care. The area measures 18 feet x 26 feet for a total of 468 square feet. This accommodates a capacity of 13 children age 5 years through 12 years.

The total space is sufficient for a total center capacity of 38 children ages 18 months through 12 years.

Equipment:

The classrooms are furnished with a variety of developmentally appropriate equipment. There is an adequate amount of equipment to support the requested capacity of 38.

Number of sinks and toilets:

There are total of 5 hand washing sinks, 5 toilets, and 2 urinals located throughout the center. This supports the center's capacity of 38.

Outdoor play area - location, fenced or not, water hazards:

There is a grassy, fenced in area located on the south side of the building that will be used for outdoor play. There are no water hazards on or adjacent to the property.

Documentation if a lead hazard risk assessment was required and the results:

On 12/17/2020, a lead risk assessment was conducted of the child care room, Great Room, lobby, and restrooms. No lead risk hazards were found.

Documentation of playground safety:

There is no climbing equipment located in the outdoor play area. Therefore, a playground safety inspection was not required.
