11/22/2022 Inspection completed onsite

IV. Description of Findings and Conclusions

On November 22, 2022, I conducted an onsite inspection at Heavenly Daycare. I measured the proposed change of space to add the preschool program to the center and approved it.

Room 1 (Infant & Toddler room) measures 19 feet by 19 feet for a total of 361 square feet of usable child care space. The room capacity is 7 children ages birth to 30 months of age.

Room 2 (Preschool room) measures 19 feet by 9 feet for a total of 171 square feet of usable child care space. The room capacity is 5 children ages 31 months to 5 years of age.

The following room was previously measured and approved for child care use:

Room 3 measures 17 feet by 6 feet for a total 102 square feet of usable child care space for 2 children ages birth to 30 months.

The preschool room is furnished with a variety of developmentally appropriate equipment.

The center has two bathrooms one for the children and one for child care staff members. The children's bathroom has one toilet and a sink. There are also two additional sinks accessible to the children and child care staff for handwashing.

A lead hazard risk assessment was completed on July 20, 2021, and there were no lead hazards found in the building or the outside area.

Environmental health and fire safety inspections were completed at the time of the original issuance.

V. Recommendation

I recommend approval of Room 2 as a change of space to a preschool classroom.
