III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, I observed children engaged in active work and recall educational activities. The classroom and staff members provide a positive and nurturing environment to the children.

IV. RECOMMENDATION

I recommend the issuance of a regular license to this child care center.
