III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

Observations

The children were engaged in developmentally appropriate free play, they then participated in a large group activity. Snack was eaten after which the children went outside.

IV. RECOMMENDATION

I recommend renewal of this child care license.
