IV. Description of Findings and Conclusions

The terms of the original license were modified on 03/22/2023.

Two additional rooms were approved for child use space:

Room 1a measures 15 sq. ft. x 54 sq. ft. for a total of 810 sq. ft. This allows for a capacity of 16 children ages 2 ½ and younger with group size capped at 12. This allows for a capacity of 23 children ages 2 ½ and older.

Room 1b measures 19 sq. ft. x 54 sq. ft. for a total of 1,026 sq. ft. This allows for a total of 20 children ages 2 ½ and younger or 29 children ages 2 ½ and older.

The licensee understands that group size rules apply.

New inspections are not needed at this time as the fire safety inspector and environmental health inspector provided prior approval.

V. Recommendation

I recommend the change in child use space. I recommend the increase in the center's capacity from 45 – 90 children ages birth to 12 years of age.
